

Peter Sjöblom, PhD

Dr Peter Sjöblom received his B.Sc at Uppsala University, Sweden in 1977 and a PhD in 1986. He was named Associate Professor of Physiology, at University of Goteborg in 1992. He is also a ESHRE Certified Senior Clinical Embryologist since 2008.

Currently, PS is Unit Manager at Nottingham University Research and Treatment Unit in Reproduction (NURTURE) with responsibility for overall operations, including personnel, finance, and quality management. Having worked in the human IVF field since 1986, PS has held senior managerial positions in university clinics and private university-associated clinics in both Sweden and Australia. PS has also consulted to IVF clinics internationally.

Throughout his career, PS have been involved in research, supervision and teaching. PS has held senior teaching positions in Sweden and in Australia, including being course coordinator for the Master's course in clinical embryology at the Monash Institute of Reproduction and Development and he is currently affiliated with the Karolinska Institute in Stockholm. PS has authored and co-authored over 60 peer-reviewed papers and book chapters.
